Prices read from public retail pages of 1 retail business, 1 store location. Not a survey of Saint Lucia, not official statistics, not inflation, and not a consumer price index.

EXECUTIVE SUMMARY

What this edition shows

- This edition covers **1 retail business at 1 store location**, observed online. It is not a survey of prices across Saint Lucia.
- **330 of 6,819 observed products changed price** (4.8%). Of the 4,696 comparable products, 4,366 held the price already recorded for them.
- Increases and decreases split **266 up, 64 down**.
- The typical increase was **+5.3%**, and **252 of the 330 changes set a new recorded high** for that product.
- Increases clustered: **2 brand lines account for 15 of the 266 increases**, which a category view alone would not reveal.
- The fixed basket of 1,922 continuously observed products cost **+0.70%** relative to the first qualifying observation.
- Comparisons span **5 windows of 27 to 99 days**, so the changes here are not measured over one uniform period.

1 Coverage and comparability

What was observed, and what it does not cover

This edition draws on prices published online by **1 retail business, 1 store location**. It is not a survey of retail prices across Saint Lucia, and nothing here should be read as describing what a product costs anywhere else on the island.

1 Retail business observed	1 Store location	6,819 Products observed
--------------------------------------	----------------------------	-----------------------------------

HOW THE TOTAL RECONCILES

Every observed product falls into exactly one of three groups. Products seen for the first time are kept out of the unchanged count, because there is no earlier price to compare them with.

Group	Products	Share of observed
Comparable, price unchanged	4,366	64.0%
Comparable, price changed	330	4.8%
Observed for the first time	2,123	31.1%
All products observed	6,819	100.0%

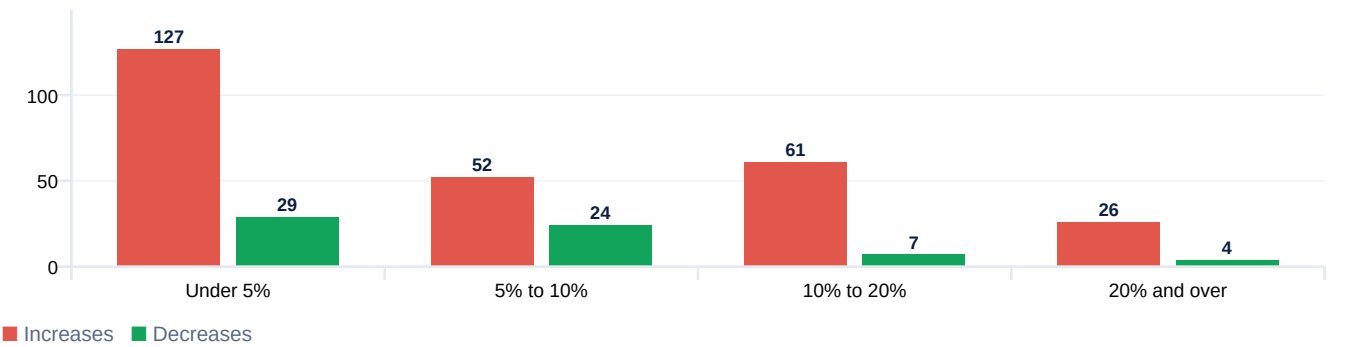

So **330** of the **4,696** products that could be compared changed price - 7.03% of comparable products. The remaining **4,366** held the price already recorded for them.

Prices are read from public pages that anyone can view in a browser. Because they come from a single business at a single location, they describe that shopfront only - not a market, a parish, or the country. This is not inflation, a consumer price index, a cost-of-living measure, or an official statistic.

2 How prices moved

The distribution, and movement against each product's own record

Ranking the biggest movers makes any update look dramatic. The middle of the set is calmer: the typical increase was **+5.3%** and the typical decrease **-5.5%**. Half of all increases fell between **+2.8%** and **+12.1%**.

Measure	Increases	Decreases
Products	266	64
Median move	5.3%	5.5%
Middle half	2.8% to 12.1%	2.8% to 7.8%
Largest move	95.4%	35.2%

NEW RECORDED HIGHS AND LOWS

Counting increases against decreases treats a small rise the same as a move past everything previously recorded. Of the 330 products that changed, **252** finished at the highest price this tracker has recorded for them and **50** at the lowest.

“Recorded high” means the highest price this tracker has observed, not an all-time shelf price. A product observed only a few times reaches a new recorded extreme easily.

3 Largest recorded movements

The biggest increases and decreases

Ranked by percentage change, with the dollar move as a tie-break so a large percentage on a low-priced item still shows what it costs in cash.

LARGEST INCREASES

Product	Category	Previous	Latest	Change
Frontera Concha y Toro Chardonnay 1.5L	Other	\$30.11	\$58.84	+95.4%
Go Ahead Strawberry Yogurt Breaks 177.5G	Snacks	\$2.40	\$3.99	+66.2%

Tang Orange 20G	Beverages	\$1.08	\$1.55	+43.5%
Bermudez Digestive Biscuits Sing 42G	Snacks	\$0.73	\$1.00	+37.0%
Local Produce Potatoes Idaho 4.5KG	Produce	\$17.22	\$23.35	+35.6%
Hsa Wiper Blade 6MM 19" (Each)	General Merchandise	\$19.95	\$26.95	+35.1%
Shirley Biscuit Chocolate 37G	Snacks	\$0.75	\$1.00	+33.3%
Shirley Biscuit Snack 12X 37G	Snacks	\$0.75	\$1.00	+33.3%
Shirley Coconut Single 37G	Snacks	\$0.75	\$1.00	+33.3%

LARGEST DECREASES

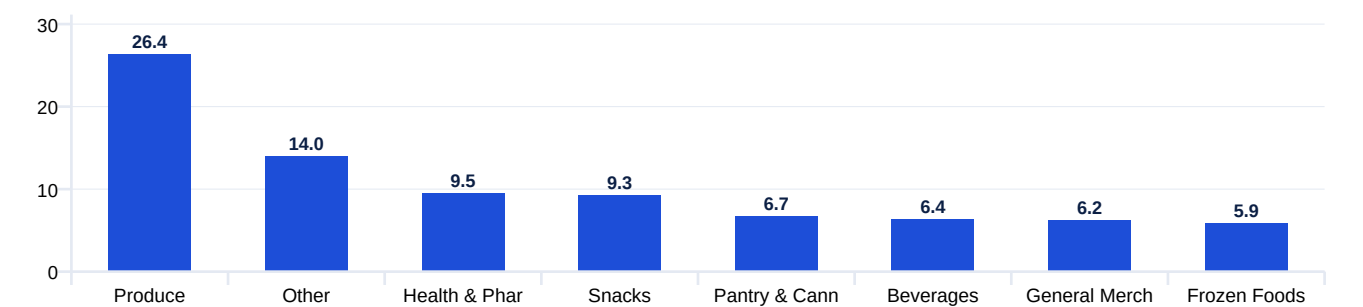

Product	Category	Previous	Latest	Change
Maggi Season Up Fish T/M 10G	Pantry & Canned Goods	\$1.99	\$1.29	-35.2%
Webber No-Flush Niacin 90 x 500MG	Health & Pharmacy	\$129.95	\$84.95	-34.6%
Waitrose Baby Wipes Fragrance Free Mini 64X (Each)	Personal Care	\$15.95	\$10.95	-31.3%
Local Produce Sweet Potatoes (per KG)	Produce	\$14.39	\$9.98	-30.6%
Frontera Merlot 750ML	Other	\$30.92	\$25.40	-17.9%
Kraft Dressing Classic Caesar 473ML	Pantry & Canned Goods	\$29.99	\$24.99	-16.7%
Imported Green Pepper (per KG)	Produce	\$29.95	\$24.99	-16.6%
Frontera Cabernet Sauvignon 750ML	Other	\$30.19	\$25.40	-15.9%
Imported Yellow Corn (per KG)	Produce	\$7.99	\$6.99	-12.5%
Imported Lettuce Romaine (per KG)	Produce	\$32.99	\$28.99	-12.1%

Ranking is by size of movement only. This report records that a price changed; it does not establish why.

4 Categories and brands

Compare rates first, then look for concentration

Read the rate column first. A raw count is driven by how many products a category holds, so changes per 100 observed products is what makes categories of different sizes comparable with each other.

Changed products per 100 observed in each category

Category	Observed	Changed	Up	Down	Per 100
Produce	198	43	24	19	26.4
Other	396	40	36	4	14.0
Health & Pharmacy	397	22	19	3	9.5
Snacks	809	55	51	4	9.3
Pantry & Canned Goods	1,073	67	56	11	6.7
Beverages	245	15	14	1	6.4
General Merchandise	258	8	7	1	6.2
Frozen Foods	343	15	6	9	5.9

BRAND CONCENTRATION AMONG INCREASES

Increases did not spread evenly. **Bencopeak** alone accounts for 11 of the 266 increases (4.1%), and 15 increases (5.6%) come from just 2 brand lines. A category view alone would report this as one category moving.

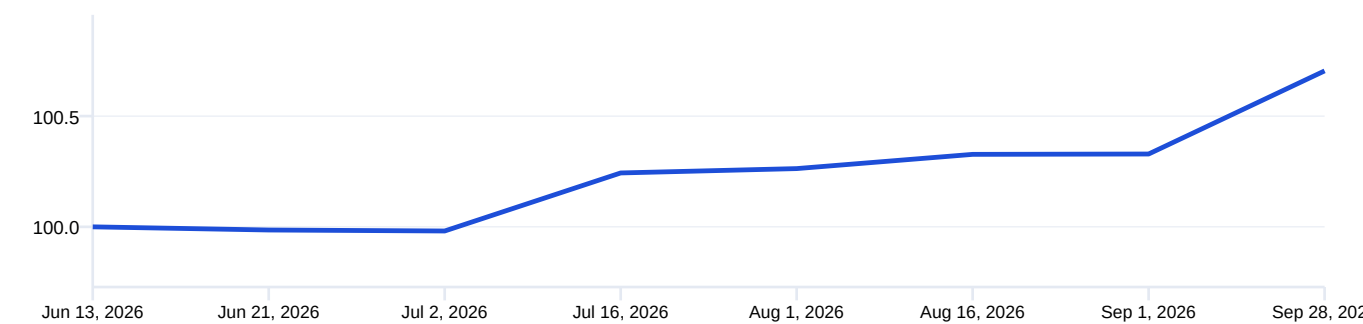

Brand line	Products	Share	Median move	Main category
Bencopeak	11	4.1%	+2.1%	Pantry & Canned Goods
Store brand	4	1.5%	+8.9%	Dairy & Eggs

Brands are matched from a curated list of product-name prefixes, never split automatically - words such as "Imported" and "Local" describe origin, not a brand. A shared prefix shows products branded alike; it is not evidence about what any manufacturer, distributor, or retailer decided.

5 Fixed basket

The same products across every qualifying observation

Counting how many products changed says nothing about what the changes cost. This basket holds the **1,922** products with a recorded price in every qualifying observation, so the same items are compared at every point and the total cannot move because the product mix changed. Its combined cost has risen **0.70%** since Jun 13, 2026.

Basket cost indexed to the first qualifying observation = 100

Observation	Basket cost	Index	Change from first
Jun 13, 2026	\$33,310.66	100.00	0.00%
Jun 21, 2026	\$33,305.92	99.99	−0.01%
Jul 2, 2026	\$33,304.43	99.98	−0.02%
Jul 16, 2026	\$33,391.72	100.24	+0.24%
Aug 1, 2026	\$33,398.27	100.26	+0.26%
Aug 16, 2026	\$33,419.68	100.33	+0.33%
Sep 1, 2026	\$33,420.21	100.33	+0.33%
Sep 28, 2026	\$33,545.21	100.70	+0.70%

An unweighted total of recorded shelf prices from a single retail business. It is a continuity measure for this tracker - not inflation, not a consumer price index, and not a household cost-of-living measure. It applies no spending weights and covers only continuously observed products.

6 Not observed in this update

Products that did not appear this time

An update also changes which products appear at all. **2,123** products were observed here for the first time, while **859** products with an earlier recorded price were not observed in this update.

Category	Not observed this update	Share of not observed
Pantry & Canned Goods	330	38.4%
Beverages	88	10.2%
Personal Care	84	9.8%
Health & Pharmacy	62	7.2%
Snacks	50	5.8%
Household	49	5.7%
Dairy & Eggs	46	5.4%
Frozen Foods	36	4.2%
Grains & Cereals	33	3.8%
Other	30	3.5%

This section says “not observed” rather than that a product was discontinued. A missing product may be unavailable, renamed, repackaged, or simply absent from the pages read that day. Products keep their last recorded price until they are observed again.

7 Comparison timing

Why there is no single comparison date

There is no single comparison date for every product. Each is compared with its own most recent recorded price, so the changes in this edition are measured over **5** different windows spanning **27 to 99 days**. A longer gap gives a product more time to record a different price, so the windows are not directly comparable with each other.

Previous observation	Products	Share	Elapsed
Sep 1, 2026	298	90.3%	27 days
Aug 16, 2026	8	2.4%	43 days
Aug 1, 2026	13	3.9%	58 days
Jul 2, 2026	8	2.4%	88 days
Jun 21, 2026	3	0.9%	99 days

8 Methodology and publication controls

How each edition is prepared and checked

HOW EACH EDITION IS PREPARED

- 1. Calculate the facts** Every headline figure, table, and chart value is computed from the validated price data. Nothing is typed by hand.
- 2. Check the numbers** The edition is blocked if totals, movement ranges, basket membership, or coverage labels do not reconcile.
- 3. Build the evidence** Tables and charts are built from the same validated facts that feed the written commentary.
- 4. Write the commentary** The commentary summarises validated facts. It does not recalculate headline figures and does not assert why a price moved.
- 5. Keep an audit trail** The facts, source fingerprint, template version, and final PDF are stored together so any edition can be reproduced.

CHECKS REQUIRED BEFORE PUBLICATION

- Increases and decreases must together account for every changed product.
- Unchanged comparable, changed comparable, and first-observed products must add up to all products observed.
- The movement buckets must account for every increase and every decrease.
- New recorded highs and lows cannot exceed the number of changed products.
- Any statement about brand concentration must use the values shown in the brand table.
- A change list may be called complete only when every changed product is included.
- The fixed basket must hold the same products across the whole series shown.
- The number of businesses and locations observed must be stated wherever coverage could be misread as island-wide.

WHAT THIS EDITION DOES NOT SHOW

- Prices at any business or location other than those listed under coverage.
- Official inflation, a consumer price index, or a cost-of-living measure.
- Why a price changed, or whether it was a promotion, a pass-through, or an error.
- Household spending weights, or availability beyond the pages observed.
